Subj: Richland County, South Carolina Smoking Restriction Ordinance

Attached for your information is a report from John Bankhead and John Gregg McMaster which fully explains the difficulty we are facing in Richland County. Restaurants, cafeterias, snack bars and other public eating places have been amended out of the ordinance. The retail stores are supporting the ordinance so we have few allies.

Unfortunately, it appears the ordinance will pass by a vote of 6 to 5. Every effort is being made to turn this vote around.
